may reduce any earned patent term adjustment. See 37 CFR 1.704(b). NOTICE OF APPEAL 2. The Notice of Appeal was filed on A brief in comp filing the Notice of Appeal (37 CFR 41.37(a)), or any exter Notice of Appeal has been filed, any reply must be filed w	liance with 37 CFR 41.37 must be nsion thereof (37 CFR 41.37(e)), to	filed within two month avoid dismissal of the	s of the date of				
AMENDMENTS 3. ☑ The proposed amendment(s) filed after a final rejection, be a capable after a final rejection in beta after a final rejection in beta after a final rejection, beta after a final rejection and beta after a f	nsideration and/or search (see NOīw);	ΓE below);					
appeal; and/or (d) They present additional claims without canceling a continuation Sheet. (See 37 CFR 1.14.) The amendments are not in compliance with 37 CFR 1.15. Applicant's reply has overcome the following rejection(s): Newly proposed or amended claim(s) would be all	corresponding number of finally rejected and 41.33(a)). 21. See attached Notice of Non-Co	ected claims. mpliant Amendment (PTOL-324).				
non-allowable claim(s). 7. For purposes of appeal, the proposed amendment(s): a) how the new or amended claims would be rejected is prove The status of the claim(s) is (or will be) as follows: Claim(s) allowed: Claim(s) objected to: Claim(s) rejected: 1-4 and 7-10. Claim(s) withdrawn from consideration: AFFIDAVIT OR OTHER EVIDENCE							
 The affidavit or other evidence filed after a final action, bu because applicant failed to provide a showing of good and was not earlier presented. See 37 CFR 1.116(e). 							
The affidavit or other evidence filed after the date of filing a Notice of Appeal, but prior to the date of filing a brief, will not be entered because the affidavit or other evidence failed to overcome <u>all</u> rejections under appeal and/or appellant fails to provide a showing a good and sufficient reasons why it is necessary and was not earlier presented. See 37 CFR 41.33(d)(1). O. The affidavit or other evidence is entered. An explanation of the status of the claims after entry is below or attached. REQUEST FOR RECONSIDERATION/OTHER							
 11.		n condition for allowan	ce because:				
/Michael R Mansen/ Supervisory Patent Examiner, Art Unit 3644	/B. M. O./ Examiner, Art Unit 3644						

Continuation of 3. NOTE: The amendment to claim 1 raises a new issue of a 112 2nd paragraph rejection. It is unclear how the film completely envelopes the insulation package. In veiw of the Figures, it appears the that film only envelopes the insulation core. Thus, it would seem that the film is part of the insulation package and that it completely envelopes the insulation core.

Continuation of 11. does NOT place the application in condition for allowance because: Applicant argues that the Movsesian et al. reference does not teach a film having a hose like end section formed at an end of the film outside of a film envelope. Movsesian et al. teaches a hose-like end section formed by heat sealing elements 38 and 36. Fig. 5 of Movsesian et al. shows the film (34) which is comprised of top and bottom 38 and 36, these sections are heat sealed at 39. Additionally, Fig. 6 shows heat seal lines on all four sides of insultation cores (32). Now looking back at Fig. 5, heat seals must be formed on the remaining two edges (not shown) around insulation cores 32. These two edges would be into and out of the page as suggested by the square shapes of the modules (33) in Fig. 6. When these two edges (unseen in Fig. 5) are sealed, the structure would then form a hose-like end section. The end sections are shown heat sealed together in Fig. 5 at 35 and 39 but would appear hose-like before being heat sealed. This meets the applicants claim. Additionally, Movsesian et al. discloses edges 35 being folded (See last two sentences of Paragraph [0057]).
